TERRACE is for everyone who wants to live a little.

It is a new way of living that is timeless, expressive and aspirational. Architecturally designed with high ceilings to maximise the sense of light and space, the on trend contemporary look means you will be living in style.

Plus, there is the flexibility over design and layout, so you can make your home truly yours. TERRACE combines the feeling of luxury living with the security of owning your own double brick house and land, to create a lifestyle without compromise.
